

I do not think that any changes should be made to weaken the system that is in place. As a mother, wife, and businesswoman, my family has limited quality time together and we do not want this time interrupted by sales or recordings of any kind. If we are interested in a product we are quite capable of reaching out to that applicable vendor.

The telemarketers should use print advertising if they wish to reach out to households.

Again, please do not weaken any of the laws for the "Do not Call" Telephone Consumer Act.
